

THE PPE CABINET

Shield's in-wall PPE storage provides quick access to and storage of all personal protective equipment, while also recessing the unit into the wall to maximize storage and declutter corridors. Product cutouts mean quick access - no need to open cabinet doors. Acrylic solid surface construction means a durable, cleanable product that lasts for life.

SIGNATURE STYLE

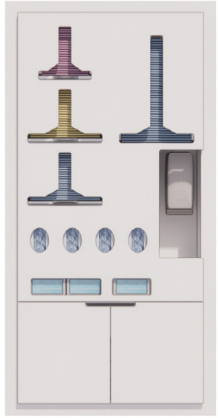

- Cleanable, renewable materials
- Self-close doors and concealed hinges
- Gown storage with adjustable sizing
- Molded glove box holder
- Integrated sanitizer condition
- Precision routed openings
- Flexible overflow storage
